

Meeting Minutes:10/2/19

RMED

If you missed last week's meeting, you missed the always exciting Presentation from the University of Illinois RMED Program by their rousing Assistant Director of Recruitment, Mark Meurer! RMED is not your typical Medical School Program, the "R" in RMED stands for, it stands for Rural, which is the focus of this program. As one of the most successful Rural Medical Programs in the country, RMED focuses on training physicians to become doctors in a rural setting. This may not be for everyone but if you possess rurality, this may be the program for you. For more information, see the attached flyers!

Volunteering

If you have not signed up for a day throughout the week to volunteer, please email our President or Vice-president, Kortni Kemper (Kortni.Kemper@siu.edu) or Jenna Lee (Jenna.lee@siu.edu), respectively, to be put into contact with our volunteer leaders.

Next meeting

Our Next meeting is on Wednesday, October 16th and we will be hosting a panel for PA and Med School students! Bring all your questions that you've been dying to ask. Also, make sure you sign in during the meetings from now on, there may be a surprise for you in the future!

Sincerely your PPA Secretary,

Jawaun Valentine
